CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Veterans Ask 5760 Acres Muck Lease

The Glades agricultural boom got a double-barrelled assist from the trustees of the Internal Improvement Fund Tuesday.

Agreed to receive bids for the lease of 5,760 acres of muck land lying six miles southeast of Belle Glade. The Pelican Bay Cooperative wants to lease this tract for vegetable farming and cattle raising.

Gave the go ahead for construction of a railroad spur through state prison lands to the 14 million dollar sugar mill being built by the Florida Sugar Cane Growers Cooperative.

The land to be put up for lease by the trustees is virgin muckland, never before cultivated.

The Pelican Bay Co-Op, seeking a 10-year lease of the land is a veterans organization formed after World War II to aid veterans in entering the Glades farming industry.

The co-op quickly attracted 200 veterans, but interest dwindled when it was unable to get sufficient farmland. Less than 20 veterans now belong.

Co-Op President Victor Mulberg, a Belle Glade dentist, said the co-op now has only 320 acres under lease from the state.

The Sugar co-op plans groundbreaking for its new mill within three weeks. State Representative Emmett Roberts told the IIF Board.

Roberts asked for, and got, an easement through pasture lands at the Belle Glade prison farm for a one-mile spur connecting the mill with the Florida East Coast Railroad.

The request was granted after Roberts promised adequate crossing and access to the pasture land.

Two Garden Clubs To Meet On Sept. 20

The schedule of programs for the coming year was completed and approved. Regular meetings will be held at 10 a. m. the third Tuesday of each month during the year.

The Canal Point Garden Club will meet in their first meeting of the new year at the home of Mrs. C. B. Stringari, Thurs. Sept. 21, at 3 p. m. with Mrs. James Miller as co-hostess. Mrs. A. E. Several homes have already been sold and the purchasers are being processed now by F. H. A. Actual construction is expected to be under way within three to four weeks it was learned today from the builder's agent, Hunt Real Estate. They also stated sales are moving along at a rapid pace, due to the wide acceptance of the better quality and easy terms of the models offered.

There are 22 different models for the prospective Parkview Manor residents to choose from, each with its own appealing features. Careful planning by the developers assures the home owners that Parkview Manor will not have that "project look." All the orange trees possible will be spared, as this is a unique feature not to be found elsewhere in this area.

Applications are still being taken for these homes at Hunt Real Estate office in Pahokee. Prices range from \$12,400 upward. Down payments are from \$400.

Sugar Mill RR Spur For Glades Co-Op

A sugar mill being constructed by Sugar Cane Growers Cooperative will get a 75-foot wide right of way across state-owned land in Palm Beach County for construction of a railroad spur.

Cabinet trustees of the Internal Improvement Fund agreed to give the tract totaling about nine acres, and said it may "be used by other growers to tie into the spur."

Trustees also decided, Tuesday to accept bids for lease of 5,760 acres of rich marshlands near Belle Glade, the Associated Press reported from Tallahassee.

They agreed not to sell the land because it would be worth far more in a few years than its currently appraised price of \$100 per acre.

The Pelican Bay Cooperative, a group of farmers, has applied to lease the land for the next 10 years for an average of \$5 per acre per year.

Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

\$3 = \$4 *fourteen months faster than before*

The Bonds you own are better than ever, too

The new $3\frac{3}{4}\%$ rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra $\frac{1}{2}\%$ from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remain-

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

You save more than money

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're even worth much more than you've invested in them. And your Bonds will continue to grow this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no government or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$1.50 a week. In 6 years you'll have Savings Bonds worth \$2000 in cash. In 30 years, \$4400.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Watchtower Meet In Miami Success

"Man's destiny depends on Bible prophecy rather than on scientific achievement." These were the words of Henry L. Brisett, district supervisor of the Watchtower Bible and Tract Society, as he spoke to some 930 delegates attending a three-day seminar held at North-western Senior High School in Miami.

He went on to say, "it is no longer a matter of rule or ruin, but a matter of being ruled by God's kingdom or ruined by God's war against rebellious ones." In these critical times man seek knowledge of the future. Instead of turning to God's word of prophecy, they seek information from occult sources.

Some highlights of the convention were the baptism of 15 ministers and a series of demonstrations showing how to help persons take an active part in the ministry of Jehovah's Witnesses.

The purpose of the three-day convention was to stimulate the preaching methods as used by the Witnesses and to train them to take care of the expansion work being done.

About 150 persons attending volunteered their time to do the various jobs necessary to make the convention a success. Such volunteers were: electricians, cooks, carpenters, typists, and general laborers.

Mrs. Lester Hatten was selected to take the Sororities suggestions to the City Council. Pledges were discussed, and voted to accept a transfer from Miss Myra Cruikshank.

Mrs. Lester Hatten presented an art program on "Body Beautiful." After which the hostess served refreshments of cake and coffee.

Christian Science Group Of Canal Point

The nature of God as Spirit, not matter, will be brought out Sunday at Christian Science church services.

Opening the Biblical selections in the Lesson-Sermon entitled "Matter," are these verses from Exodus (20): "And God spake all these words saying... Thou shalt have no other gods before me... Ye shall not make with me gods of silver, neither shall ye make unto you gods of gold."

This citation will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (pp. 199, 200): "When Homer sang of the Grecian gods, Olympus was dark, but through his verse the gods became alive in a nation's belief. Pagan worship began with muscularity, but the law of Sinai lifted thought into the song of David. Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind."

Unique Opportunities Provided In 4-H Work

Visitors who watch 4-H demonstrations at county or state fairs are impressed with the ability of even the 10-year-olds to stand at ease before a group of people and talk intelligently.

"These qualities will prove invaluable in any occupation, as well as in social life," says W. W. Brown, state boys' 4-H Club agent for the Florida Agricultural Extension Service.

The 4-H philosophy is "learn by doing." And Brown believes this philosophy offers 4-H members an opportunity for leadership development that is unique among youth organizations.

"Four-H boys and girls learn practical skills in the projects they choose," the state leader explains. "But giving a demonstration on his project not only helps a youth master his subject matter more thoroughly, it also helps develop poise and self-confidence."

"Demonstrations are one of many ways 4-H guides young people to more pleasing, forceful personalities. Members acquire the ability to handle responsibility and to work with others as they hold office, serve as junior leaders for younger groups, and take part in community activities."

With enrollment time at hand, Brown suggests that young people interested in becoming 4-H members get in touch with their county Extension Service office.

"Florida's 4-H clubs have a large number of different projects in which members can take part," he says. "Young people from all parts of the state, rural or urban, can find activities to suit their interests and abilities."

Petition Asks No 4-Laning Pahokee

Most residents of the county favor road improvements so the county commission this week showed some surprise at a petition it received.

The petition, from 117 residents of Pahokee, asked that State Road 715 through Pahokee NOT be four laned. The petition was referred to the State Road Department.

Coordination Is Sought By Jarrard

TALLAHASSEE — The Florida Development Commission is interested in seeing the promotion and advertising of all public and private agencies of the state coordinated, says Chairman-Director Wendell Jarrard.

But Jarrard says there was no thought in the Development Commission of combining its advertising program with that of the Florida Citrus Commission.

The Development Commission sent its advertising schedule, according to Jarrard, to the Citrus Commission and all other Florida promotion agencies. But no negotiations leading to a combined program had even been discussed.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $3\frac{3}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you want automatically deducted every pay day. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for defense. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS
